

# ICIS – The RDCK Perspective

# ICIS The RDCK Perspective

- ▶ Funding
- ▶ Collaboration
- ▶ Improved Service
- ▶ New Opportunities

# Funding

- ▶ What is your data worth and have you every really realized the value?
- ▶ ICIS Grants provided by our partners
  - Nakusp & Electoral Area K -\$5000
  - Nelson to Castlegar - \$5000
- ▶ ICF Data Improvement
  - Region wide data improvement - \$????

# Collaboration

- ▶ Great way to work with partner municipalities. If we partner we get more \$.
- ▶ The start of a real relationship with the provincial government and ICF.
- ▶ Consistency in dealing with all the stakeholders.
  - We guarantee that we are going to provide any ICIS member with the best information available in a timely fashion.
- ▶ Access to information. The more we all contribute the more information we all have to work with
- ▶ Future Opportunities...
  - ROW's
  - Mineral Claims
  - Addressing

# Improved Service

## ▶ Data Distribution

### ■ Outing Going Data

- ▶ Members get the information they want through the portal in a consistent format
- ▶ No more dealing with 3<sup>rd</sup> party consultants

### ■ Incoming Data

- ▶ We can see what's available for an entire extent and who owns the data

### ■ Standardization

- ▶ We have to use data in a format specific to our organization but other users don't need to.

# New Opportunities

## ► Address BC

- The commercial value of addressing is enormous.
- Consider the millions of dollars in lost efficiencies due to our current addressing system.
- Consider the potential value of a modern, rigorous designed, readily accessible addressing system.
